Experience

Garage2Global Ventures Pvt. Ltd.

Web Developer Intern

Kota, Rajasthan

May 2026 – Jul 2026

- Developed and deployed 5+ responsive web applications using React.js, HTML5, CSS3, and JavaScript.
- Optimized frontend performance through code splitting and lazy loading, improving page load speed and user experience.
- Collaborated with UI/UX designers to build responsive, cross-browser compatible interfaces using Tailwind CSS and Framer Motion.

Notesea

Frontend Developer (Freelance)

Remote

Dec 2025 – Apr 2026

- Built production-ready web applications, including a Parcel Tracking System and a Streaming Platform, using React.js.
- Developed reusable React components with Hooks and Context API, improving code maintainability and scalability.
- Integrated REST APIs and optimized application performance, achieving a Lighthouse score of 95+.

IBM SkillsBuild Program

Frontend Web Development Trainee

Jaipur, Rajasthan

Jul 2025 – Aug 2025

- Completed project-based training in modern frontend development, responsive web design, and industry best practices.
- Built multiple responsive web projects using HTML5, CSS3, and JavaScript, strengthening frontend development skills.
- Gained practical experience with Git, debugging techniques, and collaborative software development workflows.

Projects

Dream-Miles | React.js, Tailwind CSS, Framer Motion | [Live](#) | [GitHub](#)

- Developed a modern travel booking platform with destination listings, package exploration, and a fully responsive user interface.
- Implemented smooth animations, reusable React components, and optimized page performance for an enhanced user experience.
- Tech Stack: React.js, Tailwind CSS, Framer Motion, Netlify.

NoteNest | React.js, JavaScript, Local Storage | [Live](#) | [GitHub](#)

- Built a feature-rich note management application supporting CRUD operations, instant search, and category-based organization.
- Designed a clean, responsive interface with persistent local storage and dark mode for an improved user experience.
- Tech Stack: React.js, JavaScript, HTML5, CSS3, Local Storage API.

Venom-Dash | JavaScript, HTML5 Canvas, CSS3 | [Live](#) | [GitHub](#)

- Developed an interactive Snake Game featuring real-time collision detection, score tracking, and progressive difficulty levels.
- Implemented smooth keyboard controls, high-performance rendering, and responsive gameplay using the HTML5 Canvas API.
- Tech Stack: JavaScript, HTML5, CSS3.
